

# HONESTY

(Always the best policy...)

Name: \_\_\_\_\_ Date: \_\_\_\_\_

In the story, *Nadia's Jewelry Box*, Nadia lost her precious jewelry box while on a trip to New York where she left it on the seat of a cab. The jewelry box was found (her name & address were engraved in the lid of the box) and mailed back to her on her birthday. Nadia was thrilled to have her jewelry box returned to her in the mail.

Write about a time when you lost something that was returned back to you; or about a time when you found something and returned it back to the owner.
